Official Paper of Barber County

The Santa Fe has recently doubled its advertising space in certain republican papers and it has withdrawn all of its pat-

Just imagine the next republican platform endorsing Stubbs and Curtis, Bristow, LaFollette, Murdock, Taft, Cannon and Aldrich all in one paragraph! Same old story—anything for the spoils of office.

In all his replies to Senator Curtis, we see no reference by Gov. Stubbs to that charge of carrying certain appointees on the pay roll who do absolutely nothing to earn the salary. For instance, Barber county also has an "oil inspector."

Judge Pollock, of the federal court of district of Kansas, and the entire federal judiciary, are subjects of a sensational attack from the Appeal to Reason of Girard, Kan. The Appeal makes specific charges that ought to lead either to impeachment proceedings or to prosecution of the Appeal

As we understand it, the republicans figure the tariff was reduced in this fashion: The duty on woolen and cotton goos was increased only about 30 per duced 50 per cent which is a net de. at a reduced rate. crease of 20 per cent. We'll all quit wearing clothes and wear borax from this time on.

With one faction of the republican party increasing direct taxes 40 per cent and the other faction increasing indirect taxes 50 per cent, it seems that a wise man would desire a new deal politically. But then, that name, "republican," is such a sweet morsel to roll under the tongue that there are plenty of feebleminded voters who are willing to suffer anything and everything for the privilege of "voting er straight."

Dr. W. S. Woods, the famous banker of Kansas City, is out in a letter to Gov. Haskell of Oklahoma commending the guaranty deposit law of that state, and endorsing the guaranty principle in general. Dr. Woods is an uncle of C. Q. Chandler of Wichita, formerly of this city. Mr. Chandler is the strongest opponent of the guaranty idea in Kansas. It is the first instance we have noticed wherein the uncle and nephew could not agree on matters pertaining to the banking business. We are hoping that Dr. Woods will convert C. Q.

Some Tariff Reductions

It may be that the readers of this moral and agricultural guide who read the editorial in last week's issue will gather the impression that there were no reductions on the great common necessities of life. Let their minds be disabused of that impression. There were reductions.

Take the matter of salicylic acid. There is a reduction of the duty on this staple article of food of 50 per cent. It And so, ladies and gentlemen, socks and the stockings that you will have to buy your wife and the girls will go up ronage from certain democratic papers, in price, but then think of the saving you will make on the price of salicylic acid.

Probably some unreasonable kicker will rise up at this point and yell that he doesn't buy salicylic acid. Well, my friend, that is your own fault. Aldrich and Cannon have made it possible for you to supply yourself with the great blessing of salicylic acid at a price less than it could have been bought for before this tariff law went into effect. If you do not avail yourself of the privilege that Aldrich and Uncle Joe have given you, whose fault is it? There can be but one answer to that question. It is yours, sir, yours.

Then again, the duty on that common necessary of life, blue vitriol, was reduced 50 per cent. Think for a moment of the amount of blue vitriol that the plain common people of this country are using every day. Why complain about the increased cost of clothing when the cost of blue vitriol is reduced?

Then again there is chloroform on which the duty is lowered 50 per cent. If you feel pained over the increased cost of gloves and stockings you know that you can have surcease of sorrow by takcent while the duty on borax was re- ing chloroform, and it can be obtained

Here, then, are three great necessities of life, salicylic acid, blue vitriol and operation for goitre.

chloroform, that have been materially reduced in price by the efforts of Aldrich and Joe Cannon. Knowing how vitally important these things were to the great mass of the people, these noble patriots, Aldrich and Uncle Joe, never rested uncled the patriotal statement of the patriotal statement of the people of the patriotal statement of the pat

another necessary of life that these peerless champions of the people determined should be reduced in cost. With a high and noble purpose to see that the price of the necessaries of life was lessened they secured a reduction of 25 per cent

is true that the price of your woolen suit you are roasting Cannon and Aldrich, and also of your cotton shirt and of your pause and consider what they have done for you. Think for a moment of the fact that a reduction has been made in the price of glue, salicylic acid, blue vit-riol, chloroform and borax. We had forgotten to mention borax heretofore, but we wish to be fair. The duty on borax is also reduced 50 per cent. And yet there are those who will claim that Joe and Nels. did nothing to make the common necessaries of life cheaper.
